

Escher Wright-Dykhouse

Web Developer

■ Summary

Creative full-stack web developer with a passion for synthesizing cutting-edge technology with forward-thinking design. A recent computer science graduate with 5+ years of internship, project, and part-time experience, I am eager to bring my diverse skillset and cross-disciplinary background into a new role building unique and innovative software solutions.

● Experience

Peer Advisor @ Oregon State University Office of Global Opportunities

Corvallis, Oregon • September 2025 – March 2026

- Facilitated in-person and remote advising for 100+ students pursuing study abroad and international internship programs at OSU
- Supported staff in marketing global internships to STEM students

Web Developer Intern @ Escuela Superior de Arte y Tecnología (ESAT)

Valencia, Spain • September 2024 – November 2024

- Worked closely with marketing department creating interactive landing pages in Three.js showcasing school's UI/UX design program
- Led/assisted with internal projects using JS, PHP, and WordPress
- Communicated effectively in Spanish-speaking workplace

Part-Time Web Developer @ Open Function Computers

Portland, Oregon • Summer 2021 – 2023, 2025

- Part-time employee for 4 summers from 2021 to 2025
- Led and/or assisted with 15+ internal and client projects using technologies like Laravel, WordPress, MODx, Vue, and React
- Contributed code and documentation to open-source projects

Mobile Developer Intern @ Whitman Partners

Portland, Oregon • Summer 2019

- Designed and developed cross-platform mobile app for matching potential clients with applicants using a novel, user-friendly interface.
- Presented project to industry panel at ASE Summer Symposium

▲ Education

B.S. in Computer Science, Oregon State University Honors College

Corvallis, Oregon • September 2021 – March 2026

- Applied Web and Mobile Development focus, minor in Geography
- Undergrad Honors Thesis in collaborative mapmaking software
